School Asthma Initiative

Improving Asthma Management
For PreK-12th Grade & Beyond

School Asthma Initiative provides asthma awareness, education, and management techniques applicable to anyone who interacts with a student with asthma. It is a program of Healthy Lungs Pennsylvania — an organization that is committed to the prevention and control of lung disease.

School Asthma Initiative offers resources to child care centers, PreK-12th grade & beyond to educate school personnel, students, families, and child care staff about proper asthma management.

Some of the programs and presentations that are available include:

- Awareness & educational sessions for all students and school personnel
- An interactive full or half-day program for the entire school
- *"Understanding My Friend's Asthma"* program for summer camp staff & campers
- Education, training, and program experience for students in post-secondary health care fields

To learn more about School Asthma Initiative and the various educational components available to your school or child care center, call Healthy Lungs Pennsylvania at 1-800-220-1990 or visit www.healthylungs.org
